

Game-Changing Mega Trends

Special Edition Series of

Coffee Break with Game-Changers

with your host **Bonnie D. Graham**

Presented by

Game-Changing Mega Trends, Presented by SAP

Tuesday at 9 AM Pacific /12 Noon Eastern

Our planet will soon host 10 billion people in a globally connected economy. The world's political, social, and economic leaders, and every single one of us, need to find new ways to create a sustainable and livable planet.

How? Exciting, disruptive technology is helping the world run better and improve people's lives.

Our panels of experts will explore global social, economic and environmental challenges including health, education, energy and mobility, and discuss how technology can help address mega trends to create a better world and open new business opportunities.
